OUR IMPACT

FPSPI develops the ability of young people globally to design and promote positive futures through problem solving using critical and creative thinking.

For over 40 years, we have been building on the legacy of Dr. E. Paul Torrance to challenge advanced learners to immerse themselves in problem solving, the future, and academic competition.

Our work continues to influence the lives of future leaders.

Our culminating event brings competitors together to showcase their abilities and accomplishments in problem solving and community impact while competing for the coveted International Champion title.

This event provides opportunities to collaborate in meaningful and innovative ways and discover other cultures.

The Community Problem Solving Fair, an inspirational event open to the public, showcases the impact future problem solvers have made in their communities.

We hope you will assist us in providing an unforgettable experience for the Affiliate champions who have earned the right to compete at the highest level.

INTERESTED IN SPONSORING?

FPSPI is a nonprofit organization. Sponsorship contributions will be used to offset venue costs and assist students who have earned the right to compete internationally. *Please see back for more details.*
