Following Round 1 evaluations, rank outliers were identified and replaced with a revised total rank for Final Round consideration. Advancement to the Final Round is based on points, revised total ranks, and internal opinion values to tabulate a Scenario Score. Scenarios with Scenario Scores or 19 or less, or two ranks of 1, advanced to Final Round.

The Final Round was evaluated by three evaluators who did not evaluate any Scenarios in this division during Round 1. All three read the entire set of Final Round Scenarios and evaluated them to indicate how the Scenarios compared to one another. Using these ranks, placement was determined. For example: if two evaluators ranked Scenario A higher than Scenario B, Scenario A was given a higher placement.
