

Presentation of Action Plan Scoring Process

EVALUATION

Presentations of Action Plan, developed in response to the IC 2022 Future Scene are evaluated using the IC 2022 Presentation of Action Plan [score sheet](#). Presentations are evaluated based on relationship to Action Plan, creativity of Presentation, persuasiveness of Presentation, completeness of Presentation, incorporation of props, verbal communication of ideas, nonverbal communication of ideas, staging, preparation, and dramatic style elements. Presentations are evaluated and ranking is determined based upon total points.

FPSPi's mission is to develop the ability of young people globally to design and achieve positive futures through problem solving using critical and creative thinking. FPSPi seeks to provide all participants with a positive experience with other people interested in problem solving for a better future.

The primary purpose of Future Problem Solving evaluation is to provide students with feedback that allows them to develop and improve their problem solving skills. FPSPi evaluators award points for the work that is submitted. Each FPS component is performance-based, and evaluation is an authentic assessment of student work. Because there is no single "right" answer in FPS, varying interpretations of student work are possible. It is the goal of FPSPi evaluation to provide a fair, consistent, and reliable method for comparing student work during the International Conference.

In the event that a Presentation fails to adhere to certain rules, penalties may be applied to the score.

- Time Limit - Presentations should not exceed four minutes. Penalties will be assessed for exceeding the time limit by 15 seconds and 30 seconds. The time of a Presentation begins after the reading of the Action Plan summary. For on-site Presentations, a member of the Evaluation Team will serve as timekeeper and signal students when only 30 seconds remain by raising a colored card or other pre-determined signal.
- Mandatory Props/Quote - All Presentations must incorporate both of the mandatory props. Teams must include one of the approved mandatory quotes. Failure to include these items in the Presentation will result in a penalty for each infraction.
- Offensive Content - Students should use good judgment and remember that all submitted work should be appropriate for all audiences. In accordance with our goal to "promote positive futures," students should produce presentations that promote their Action Plan and are entertaining, creative, and suitable for all audiences. Use of language or actions that are likely to offend others due to religious beliefs, cultural differences, physical or mental limitations, sexual orientation, etc., are not appropriate. Penalties may be applied for words or actions deemed offensive.

Scoring is undertaken in accordance with the Evaluation Guidelines that have been approved for each component. FPSPi evaluation utilizes possible point ranges (with expectations) for corresponding point ranges (see the [Evaluation Guidelines](#)). While there are guidelines and descriptions of expectations, FPSPi evaluation is based on subjective scoring. It is the decision of each evaluator to determine the points that will be awarded for each section of a score sheet. Each competitive submission receives multiple evaluations, and award winners go through multiple rounds of evaluations.

ROUND 1

- Each Presentation of Action Plan will receive 2 evaluations.
- Virtual submissions will compete against one another in Round 1, and on-site presentations will compete against one another in Round 1.
- The top virtual presentations and top on-site presentations from Round 1 will advance to the Final Round where they will compete against one another.
